Introduction to Cybersecurity **EUROPEAN CYBERCUP 2023**

Participate in the **Learn-A-Thon for Introduction to Cybersecurity** to prepare students for a successful and lucrative career in technology from Cybersecurity to IoT. Academies can be part of the change and help fill the global skills shortage to build the technology workforce of tomorrow. Upskilling students is easy, low in cost and only takes four weeks through the Learn-A-Thon campaign.

Before registering to participate in the Learn-A-Thon, please read the **terms and conditions** and watch this **Skills for All short video** to help you get started. Additional details are also available in this **FAQ**.

Registration open now! Learn-A-Thon Begins October 23rd 2023

Registration Closes **October 27th 2023** Central Europe Time (GMT +2):

Incentives for students to join the Learn-A-Thon

Students who participate in the Learn-A-Thon and pass the Intro to Cybersecurity course exam with a 70% or above on any attempt will be awarded a **Cisco Introduction to Cybersecurity digital badge**.

Students that participate in the Learn-A-Thon will receive a **Cisco Learn-A-Thon experience digital badge.**

A Cisco digital badge is an emblem distinguishing an achievement that can be shared and validated digitally on LinkedIn, Twitter, Facebook, Xing, via Email, shared link; embed code into web page or blog.

After the Learn-A-Thon, we encourage students to continue to complete their Junior Cybersecurity Analyst career path. The CCST Cybersecurity exam certification is an excellent steppingstone for learners to validate their skills and then continue on to associate-level certifications like CyberOps Associate or CCNA.
